Final Year Capstone Allocation Portal

Version 2.4 • Confidential

1. System Introduction & Allocation Rules

The **Student Engineering Project System (SEPS)** is SRMIST's unified portal designed to govern, automate, and orchestrate final-year capstone engineering allocations across the Department of Electronics and Communication Engineering.

The platform enforces strict merit transparency, department stream eligibility, vacancy tracking, and collaborative multi-member team formation.

Core Institutional Policy: Each student is permitted a maximum of **two simultaneous applications** (Priority 1 and Priority 2). As soon as any faculty guide formally accepts your submission, your team is permanently allocated and all secondary applications are automatically revoked.

Figure 1.1: SEPS Official Landing Page showcasing institutional branding and direct portal entry.

2. Two-Step Authentication & Account Setup

SEPS employs a fortified two-step authentication mechanism to eliminate unauthorized access and verify student credentials against institutional registers.

Step 1: Institutional Identifier Verification

Input your official SRM registration number (e.g. **RA2311053010076**) into the identifier field and submit. The system queries the database to confirm your identity.

Figure 2.1: Login Step 1 – Entering Student Registration Number.

Step 2: Password Authentication

Once verified, the portal displays your full name, department, and role badge. Enter your confidential student password.

Default Student Password Formula:

First 4 lowercase letters of First Name + Last 6 digits of Registration Number

Example: For student **SUHAS M** (Reg: **RA2311053010076**), the password is **suha010076** .

Figure 2.2: Login Step 2 – Confirmed Student Banner and Password Input.

3. Student Profile Verification Gate

Upon first sign-in, students are guided through the **Mandatory Profile Gate**. You cannot browse or apply for capstone projects until every field is complete and certified.

The screenshot displays the 'Student Dashboard' for a user named SUHAS M. The dashboard includes a header with a welcome message, a profile icon, and a 'Logout' button. The main content area shows the student's profile information, including their email (sm2904@srmist.edu.in), registration number (RA2311053010076), and section (Section K). It also lists the faculty advisor (Dr. M. Neelaveni Ammal) and the department head (Dr. M. Sangeetha). The dashboard features several input fields for academic data: 'REGISTRATION NUMBER' (RA2311053010076), 'CGPA' (9.35), and 'DEPARTMENT / BRANCH' (Dept of ECE (Electronics & Communication)). There is a section for 'Capstone Track & Internship Status' with two options: 'Regular On-Campus Track' (selected) and 'Corporate Internship Track'. At the bottom, there is a 'PROFILE PICTURE URL' field with a placeholder image and a 'Use SRM Avatar' button.

Figure 3.1: Student Profile portal featuring academic data, portfolio links, and internship declarations.

Key Required Fields:

- **Cumulative GPA (CGPA):** Validated numeric value between 0.01 and 10.00 (e.g. 9.35).
- **Department & Section:** Pre-assigned by institutional administration (e.g. Section K, ECE Data Science).
- **Portfolio & Resume URLs:** Direct links to your LinkedIn profile, GitHub repository, and Google Drive resume.
- **Cohort Track:** Select either **Regular On-Campus** or **Corporate Internship** (requires company name and duration).

Cohort Mismatch Warning: Student teams must be homogeneous. Regular students cannot team up with Corporate Internship students due to differing review schedules.

4. Capstone Project Exploration & Search

The **Student Dashboard** provides real-time access to all approved capstone listings proposed by departmental faculty members.

Figure 4.1: Student Dashboard featuring centralized deadline, domain filters, and project cards.

Real-Time Keyword Search & Discipline Filters

Use the search bar to locate specific technologies (e.g., *Drone*, *LoRaWAN*, *TinyML*) or toggle domain chips (e.g., *AI/ML/DL*, *Embedded Systems*, *Antenna & RF*) to isolate listings.

My Applications & Member Change Tickets

My Applications (0) Change Tickets (0)

No Project Applications Submitted Yet

Browse available faculty projects below and assemble a 3-member team to submit your capstone proposal.

Capstone Project Directory

Applications: 0 / 2 Max (Priority 1 Available)

1 Project Found Reset All

Students can apply for up to 2 projects (Priority 1 & 2). Explore and assemble your 3-member team.

Figure 4.2: Filtered view of matching capstone projects.

5. Submitting Project Applications

Students submit proposals by acting as the **Team Leader**. Locate your chosen project card and click **Apply as Team Leader**.

The screenshot shows a modal window for a project application. At the top, it indicates 'PRIORITY 1 OF 2 APPLICATION' and '3-MEMBER REGISTERED COHORT'. Below this, it states 'Max 2 project applications allowed per student'. The project title is 'Edge AI Autonomous Drone Surveillance System with Real-Time Object Tracking', with a faculty guide 'Dr. M. Sangeetha' and a domain 'AI/ML/DL based applications'. The user, 'SUHAS M', is identified as the 'GROUP LEADER' with registration number 'RA2311053010076' and is on the 'Regular On-Campus Track'. The 'Team Assembly (3 Members Mandatory)' section shows '1 of 3 Added (2 needed)' and a 'Matching Cohort Only' filter. There are two 'TEAMMATE SLOT' input fields for adding teammates by registration number. A note specifies 'Team size: 3 members total (1 Leader + 2 Teammates)' and that application invites will be dispatched to all teammates upon submission. At the bottom, there are 'Cancel' and 'Add all 3 members to apply (1/3 added)' buttons.

Figure 5.1: Project Application Modal showing guide details, capacity, and project abstract.

Forming and Verifying Your Team

Enter each teammate's official registration number. The system performs instant checks to confirm that the student is not already allocated, shares your cohort track, and meets stream criteria.

7. Complete Student Button & Feature Encyclopedia

Screen / Area	Button / Feature	Type	Action Triggered & Behavior
Global Navbar	My Applications	Button	Opens drawer displaying submitted applications and priority tags.
Global Navbar	Change Tickets	Button	Opens grievance and change request portal.
Global Navbar	Notifications	Button	Navigates to <code>/notifications</code> with live unread counter.
Global Navbar	Logout	Button	Terminates user session and returns to login gate.
Dashboard	Search Input	Text Input	Instantly filters project titles, abstracts, and faculty names.
Dashboard	Domain Chips	Filter Pills	Filters listings by technological domains (AI/ML, IoT, VLSI, etc.).
Dashboard	Clear Filters	Button	Resets search terms and domain filters to display all projects.
Project Card	Apply as Team Leader	Action Button	Launches Application Modal for chosen capstone listing.
Apply Modal	Add Teammate	Button	Adds an extra registration number field for team expansion.
Apply Modal	Submit Application	Button	Dispatches team proposal to the faculty guide's review queue.
Student Profile	Save Changes	Button	Validates and commits updated CGPA, skills, and links to TiDB.

8. Frequently Asked Questions (FAQ)

Q1: Why does a project card say "Application Limit Reached"?

Students are limited to two concurrent submissions (Priority 1 and Priority 2). Once both slots are occupied, you cannot apply to further projects unless a guide declines your submission.

Q2: Can students from different branches form a team?

Yes, provided the proposing faculty guide explicitly marked the project's allowed streams as All Streams or included both respective department codes.

Q3: What if I lose my password?

Contact your Section Faculty Advisor. They have administrative privileges to verify your identity and generate a temporary access PIN.
